Quote Details

Item	Description	Qty	Unit Price	Total
GALAX EX Gamer GeForce RTX 4070 Ti 12GB	High-performance NVIDIA GPU with ray tracing and DLSS support. Dual-fan cooling system. Suitable for 1440p ultrahigh refresh rate gaming.	1	\$700.00	\$700.00
Remote Setup Support	Remote assistance for GPU installation, driver updates, and performance optimization, including DLSS and game-specific settings.	1	\$50.00	\$50.00

Subtotal: \$750.00 USD

Tax: \$52.50 USD

Total: \$802.50 USD

Terms and Conditions

- Payment terms: 50% deposit upon order confirmation, balance due upon delivery and successful installation.
- Delivery timeline: Products will be delivered and installed within 2-3 weeks from order confirmation to meet the testing cycle schedule.
- Warranty: Includes a 3-year extended warranty covering hardware defects and performance issues under normal use.
- Support: Priority remote support available during business hours for installation assistance, driver updates, and performance optimization.
- Cancellation policy: Orders can be canceled within 48 hours of confirmation without penalty; thereafter, cancellation fees may apply.

- Liability: The supplier is not liable for incompatibility issues arising from future hardware upgrades beyond the current system specifications.

Implementation Notes

- Remote setup support will include GPU installation guidance, driver updates, and configuration of DLSS and ray tracing settings for optimal performance.
- Compatibility checks will be performed to ensure seamless integration with the existing Intel Core i5-9600K system.
- Performance testing will be conducted post-installation to verify that the GPU meets the required benchmarks for 1440p ultra and 4K high settings.
- Training materials and documentation will be provided to assist the customer in managing GPU settings and troubleshooting common issues.
- Coordination with the customer's IT team will be established to schedule installation and minimize disruption to ongoing operations.

Next Steps

- Confirm order and provide 50% deposit to initiate procurement and scheduling.
- Schedule a remote setup session within one week of delivery to ensure timely installation and configuration.
- Prepare existing system for GPU upgrade by backing up important data and ensuring system readiness.
- Coordinate with IT team to allocate time for installation and testing within the 2-3 week delivery window.
- Review provided training materials post-installation to maximize GPU performance and support capabilities.
