| **Company:** | Otsuka Corporation |
| **Contact:** | Game Tester |
| **Email:** | gametester.pro@example.com |
| **Phone:** | +1 (555) 123-4567 |

## Quote Details

| Item | Description | Qty | Unit Price | Total |
|---|---|---|---|---|
| GALAX EX Gamer GeForce RTX 4070 12GB | High-performance NVIDIA GPU with ray tracing and DLSS support, dual-fan cooling, suitable for 1440p ultra and 4K high settings game testing. | 1 | $700.00 | $700.00 |
| Extended 5-Year Warranty with Advanced Replacement and Priority Support | Extended warranty coverage including advanced replacement and priority after-sales support to minimize downtime. | 1 | $100.00 | $100.00 |
| Remote Setup Support | Remote assistance for GPU installation, driver updates, and performance optimization including DLSS and ray tracing settings. | 1 | $50.00 | $50.00 |

| | |
|---|---|
| **Subtotal:** | $850.00 USD |
| **Tax:** | $59.50 USD |
| **Total:** | **$909.50 USD** |

## Terms and Conditions

• Payment terms: 50% deposit upon order confirmation, balance due upon delivery and successful installation.
• Delivery and installation will be completed within 2-3 weeks from order confirmation to meet the testing cycle timeline.
• Extended 5-year warranty includes advanced replacement and priority support; warranty claims processed within 48 hours.
• Remote setup support covers GPU installation assistance, driver updates, and performance optimization including DLSS and ray tracing settings.
• Customer is responsible for ensuring compatibility with existing hardware and providing access for remote setup.
• Any additional hardware or software requirements beyond the quoted solution will be subject to separate agreement and charges.

## Implementation Notes

• Coordinate delivery and installation scheduling to align with the 2-3 week timeline for minimal disruption to testing cycles.
• Remote setup support will include step-by-step guidance for GPU installation, driver configuration, and performance tuning.
• Integration with existing Intel Core i5-9600K and 16GB DDR4 RAM systems will be verified during setup to ensure compatibility.
• Provide documentation and remote training sessions on optimizing ray tracing and DLSS settings for AAA game testing.
• Monitor system performance post-installation remotely for 1 week to address any issues proactively.

## Next Steps

• Confirm order and provide 50% deposit to initiate procurement and scheduling.
• Schedule delivery and remote setup session within the next 2 weeks to meet the testing cycle deadline.
• Prepare existing hardware environment for GPU installation, including backup of critical data.
• Ensure availability of technical staff during remote setup for real-time assistance and training.
• Review and approve warranty and support terms to finalize agreement.
