Quote Details

Item	Description	Qty	Unit Price	Total
AMD Ryzen 9 7950X3D CPU	High-performance desktop CPU with 16 cores, 4.2 GHz base clock, 5.7 GHz boost clock, 120W TDP, suitable for gaming and content creation workloads.	1	\$564.00	\$564.00
GIGABYTE X670E AORUS PRO X Motherboard	AM5 motherboard with PCIe 5.0, Wi-Fi 7, DDR5-6400 support, robust VRM cooling, 3+ M.2 slots, suitable for high-end gaming and 4K content creation.	1	\$400.00	\$400.00
64GB DDR5-6400 RAM Kit	High-speed DDR5 RAM kit with 64GB capacity, optimized for gaming and content creation workloads.	1	\$350.00	\$350.00

Subtotal: \$1,314.00 USD

Tax: \$91.98 USD

Total: \$1,405.98 USD

Terms and Conditions

- Payment terms: 50% deposit upon order confirmation, remaining 50% due upon delivery.

- Delivery timeline: All products will be delivered within 3 weeks from order confirmation to meet the build deadline.
- Warranty: All hardware components come with a manufacturer warranty of at least 1 year covering defects and malfunctions.
- Support: Technical support available for 30 days post-delivery for setup and troubleshooting.
- Cancellation policy: Orders can be canceled within 48 hours of confirmation without penalty; thereafter, cancellation fees may apply.
- Liability: Liability limited to replacement or repair of defective products; no liability for consequential damages.

Implementation Notes

- Deployment will include assembly of CPU, motherboard, and RAM into the PC chassis with proper thermal management.
- System setup will involve BIOS configuration to enable PCIe 5.0, Wi-Fi 7, and DDR5-6400 RAM settings.
- Performance tuning and stress testing will be conducted to ensure stability for Blender rendering and 4K video editing workloads.
- Customer training session will be provided on system operation and maintenance best practices.
- Integration support will be offered to ensure compatibility with existing software and workflows.

Next Steps

- Confirm order and provide 50% deposit to initiate procurement.
- Provide any specific software or peripheral requirements for integration.
- Schedule delivery and assembly date within the next 2 weeks to meet timeline.
- Prepare workspace for system assembly and testing.
- Plan for a training session post-build completion to ensure smooth operation.
