Item	Description	Qty	Unit Price	Total
High-Capacity NAS Server	Scalable NAS system with enterprise-grade drives configured in RAID 5, optimized for 1PB storage capacity, supporting 5 simultaneous video editors with high throughput for concurrent access and reliable backup.	1	\$500,000.00	\$500,000.00

Subtotal: \$500,000.00 USD

Tax: \$0.00 USD

Total: \$500,000.00 USD

Terms and Conditions

- Payment terms: 50% upfront deposit, remaining 50% upon delivery and successful installation.
- Delivery and installation: Product to be delivered and installed within 1 month from order confirmation.
- Warranty: 3-year limited warranty covering hardware defects and failures under normal use.
- Support: Includes 12 months of technical support and maintenance with option to extend.
- Data protection: RAID 5 configuration ensures data redundancy; customer responsible for data integrity during use.
- Backup retention: Permanent backup retention policy as per customer requirement.

Implementation Notes

- Deployment to be completed within 1 month to meet business timeline.
- Setup includes configuration of RAID 5 and optimization for 1PB storage capacity.
- System to be configured to support 5 simultaneous video editors with high throughput.
- Training session to be provided for IT staff on system management and backup procedures.
- Integration with existing backup workflows to ensure weekly 2GB video file backups and permanent retention.

Next Steps

- Confirm order and sign agreement to initiate deployment.
- Schedule delivery and installation date within the next 2 weeks.
- Prepare IT environment for installation, including network and power requirements.
- Coordinate with IT team for training session scheduling post-installation.
- Establish backup schedule and verify backup retention policies with IT staff.
