## Quote Details

| Item                                     | Description                                                                                                                                                                                           | Qty | Unit Price   | Total        |
|------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|--------------|--------------|
| NAS Server with 1PB Storage Capacity     | High-performance NAS server configured with RAID 5 for reliable backup and simultaneous access by 5 video editors, optimized for storing and backing up weekly video files of approximately 2GB each. | 1   | \$480,000.00 | \$480,000.00 |
| Installation and Configuration Service   | Professional installation and configuration of the NAS server to ensure optimal performance and integration with existing IT infrastructure.                                                          | 1   | \$10,000.00  | \$10,000.00  |
| Support and Maintenance Package (1 Year) | Comprehensive support and maintenance services for the NAS server, including hardware and software support, updates, and troubleshooting.                                                             | 1   | \$10,000.00  | \$10,000.00  |

**Subtotal:** \$500,000.00 USD  
**Tax:** \$0.00 USD  

---

**Total:** \$500,000.00 USD

## Terms and Conditions

- Payment terms: 50% deposit upon order confirmation, remaining 50% due upon delivery and successful installation.
- Delivery and installation: NAS server will be delivered and installed within 4 weeks from order confirmation, subject to availability.
- Warranty: The NAS server comes with a 1-year manufacturer warranty covering hardware defects and failures.
- Support and maintenance: The support package includes 1 year of hardware and software support, updates, and troubleshooting as outlined in the service agreement.
- Liability: The provider is not liable for data loss; customers are responsible for maintaining their own backups beyond the provided solution.
- Cancellation policy: Orders can be canceled within 7 days of confirmation with a full refund minus any incurred costs.

## Implementation Notes

- The NAS server will be configured with RAID 5 to ensure data redundancy and reliability.
- Installation includes integration with existing IT infrastructure and network configuration for simultaneous access by 5 video editors.
- Initial setup will include performance optimization tailored to weekly 2GB video file backups.
- Training will be provided to designated staff on system operation and basic troubleshooting.
- Post-installation testing will be conducted to verify system functionality and performance.

## Next Steps

- Confirm order and sign agreement to initiate procurement and scheduling.
- Provide IT infrastructure details and access for installation planning.
- Schedule installation date within the next 4 weeks to meet project timeline.
- Designate staff for training sessions post-installation.
- Review and approve support and maintenance service terms.
