Terms and Conditions

- Payment Terms: Net 30 days from the date of invoice.
- Delivery: Estimated delivery within 2-4 weeks after order confirmation.
- Warranty: Full manufacturer warranty included for all hardware components.
- Support: One year of technical support included, covering installation and troubleshooting.
- Returns and Exchanges: Products may be returned or exchanged within 30 days of delivery if found defective or not as described.
- Confidentiality: All customer information and project details will be handled with strict confidentiality.

Implementation Notes

- Deployment will include installation of NAS server hardware and configuration of RAID 6 for data redundancy.
- Setup will ensure 16 TB storage capacity optimized for video backup with weekly scheduled backups.
- Network configuration will support 2.5 gigabit transfer speeds for efficient data access and backup.
- Training will be provided for IT staff on system operation, backup scheduling, and basic troubleshooting.
- Integration support will be offered to connect the NAS server with existing IT infrastructure and backup software.

Next Steps

- Confirm the final product selection and quantities for the NAS server setup.
- Provide budget approval and purchase order to initiate the order process.
- Schedule a kickoff meeting to discuss deployment timeline and technical requirements.
- Share contact details for project coordination and technical support communication.
- Plan for IT staff availability for training sessions post-deployment.
